# User Manual:

Signing up

1. Click the "Sign up now!" link in the home screen:

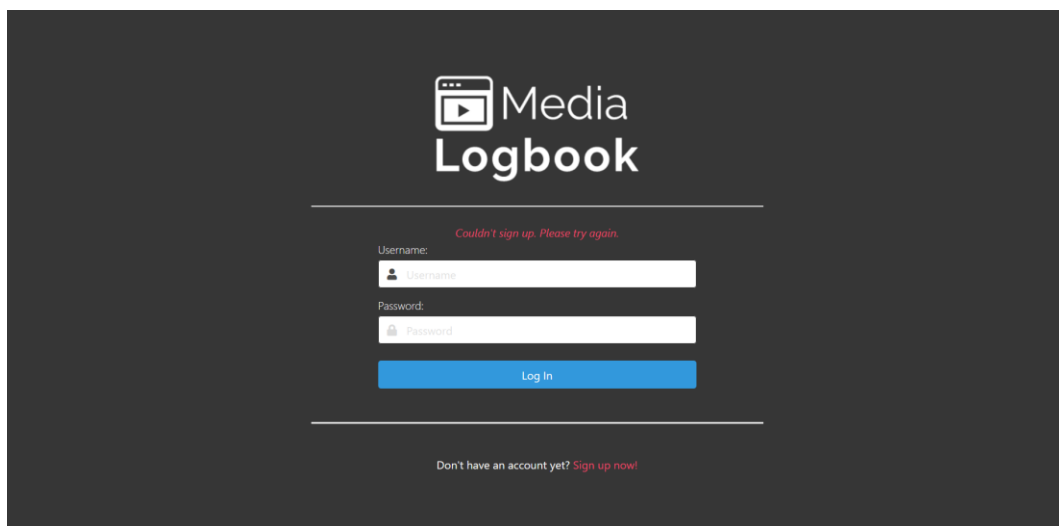

2. Enter information in the modal and click "Sign Up"

3. A message indicating if the process went successful will appear on the page.

If an error occurs (missing info, username in use etc) the error message will be shown:

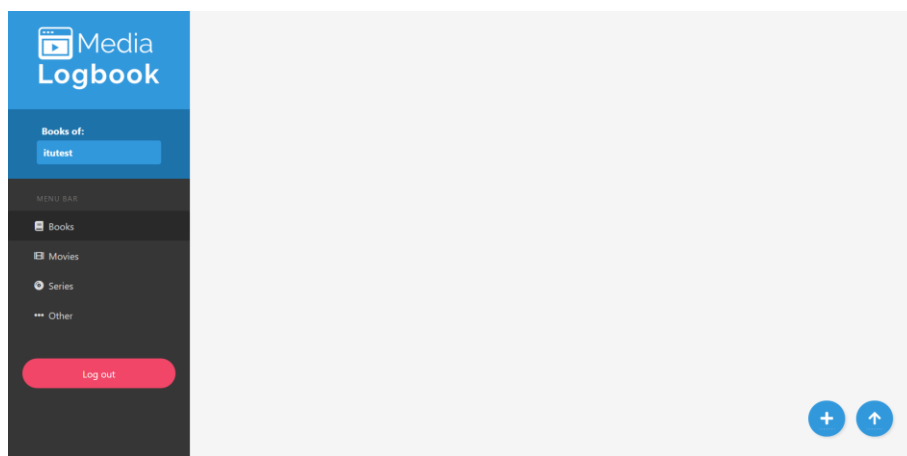

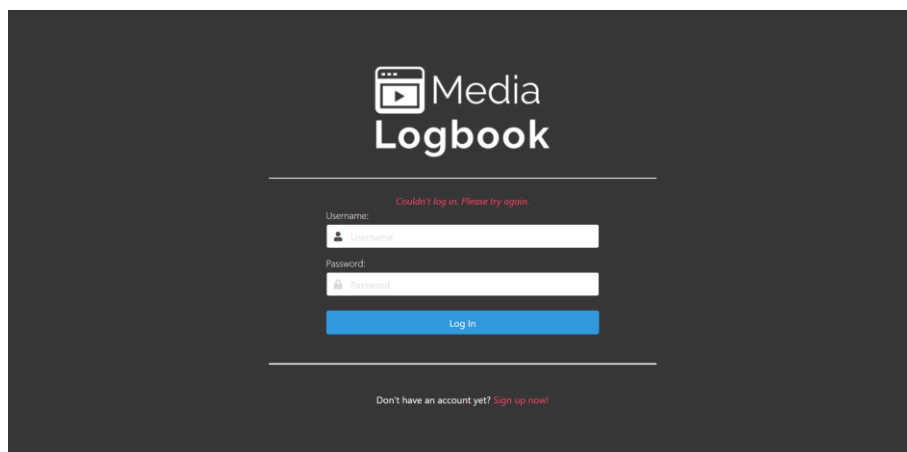

Logging in

1. Enter information in the home screen and click "Log In":

2. If no problem occurs, it should redirect the user to their "Books" page:

Else it shows an error message in the home screen:

Adding content

1. Click the button with the plus sign in the bottom right corner of the page:

2. Enter info about the content (in this case, a book) and click "Add":

3. If the process finishes successfully, the content will be added:

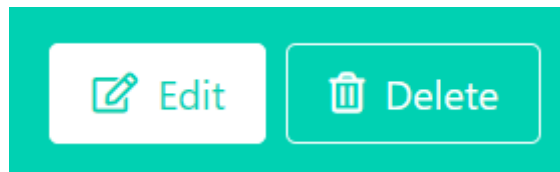

Else it will redirect to the same page back, without any additions to the contents.

Editing content

Editing content is similar to adding content.

1. Press the "Edit" button in the bottom of a card.

2. Change information in the modal on the screen, just like in the "Adding content" process. Click the "Edit" button in the bottom right.
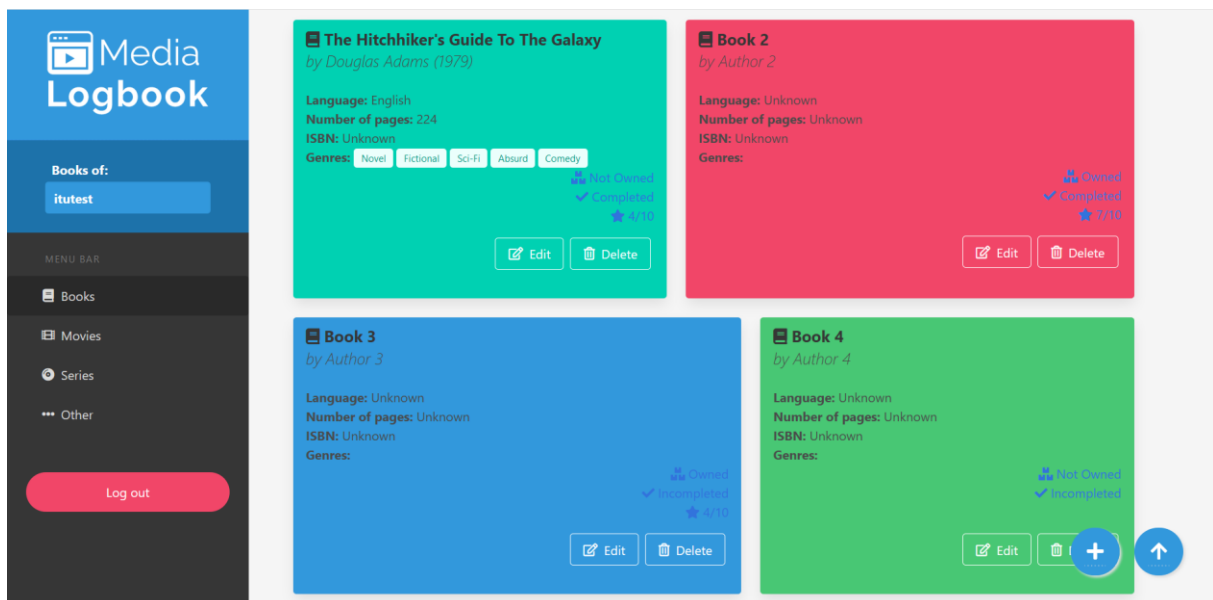

Deleting content

1. Click the "Delete" button in the bottom of a card.

Filter view

1. To view contents with a matching criterion, click the blue links in a card:
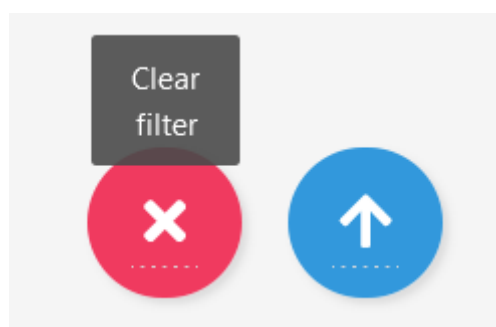

2. The contents with the same property will be visible (all the completed books in this

case):

The same applies for their rating and their owned status.

3. To remove the filter, press the red button with a cross on the bottom right corner:
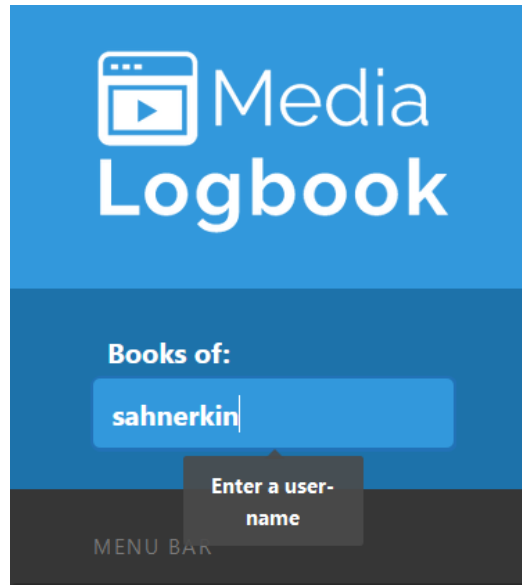

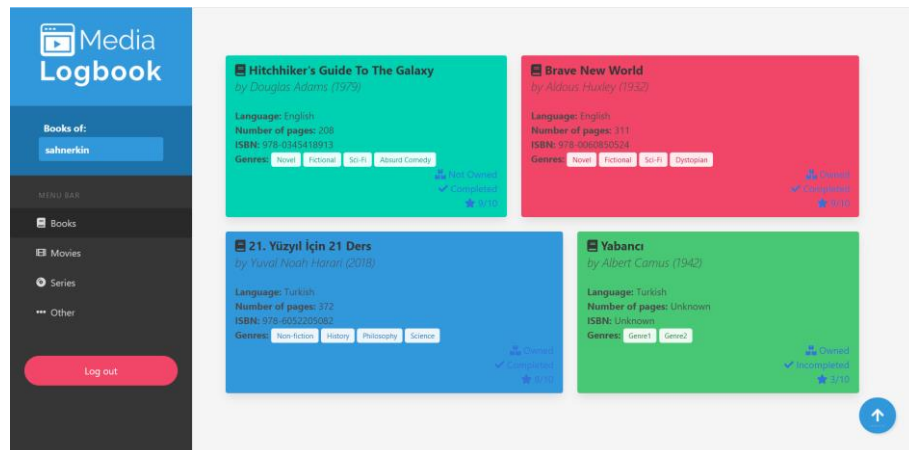

Navigation through other content pages

Click the links in the menu bar on the left. "Books", "Movies", "Series", and "Other" pages will take the user to the corresponding pages. All the features mentioned above (Adding/editing/deleting/filtering contents) apply for these pages as well.

Visiting another user's content pages

1. To see another user's "profile", enter their username on the textbox on the left and hit "Enter":

2. Their contents will be shown on the screen. Since it is a read-only view, adding, editing or deleting contents isn't possible. Other features (navigation and filtering) apply.

Going back to your own profile: Either click the logo on the top left, enter your username in the username box or manually go back to the home page URL.

Logging out: Click the "Log out" button on the bottom left.

Viewing a user's profile without logging in: You have to manually go to the URL for their page.
